2

## Before the Activity

- Take time to explore the [Student Guide](#) and adapt the activities/steps if needed.
- Share the [Student Guide](#) with your students
- Plan time in your schedule for the transition activities ( at least two classes)
- Make sure your students have access to evidence of their learning ( projects, evaluations etc.)

3

## During the Activity

- Begin by playing the video titled "[Transition to High School](#)" with your class.
- Ensure that all students have access to myBlueprint.
- Pause the video at designated points to facilitate discussions and allow for interaction.
- Provide ample time for students to complete each step outlined in the video.
- Support students throughout the process by offering guidance and providing additional examples as needed.
- Verify that students have evidence of their learning prepared and ready for review.

4

## Post Activity

- Decide on the method for students to share their portfolios.
- Students can opt to share their portfolio by clicking on the "share" option and then sharing the generated link with you.
- Alternatively, utilize the "portfolio presentation feature" to organize students' presentations of their portfolios.
- Provide constructive feedback to students on their portfolios once they have been shared or presented.
