

Develop a Financial Plan that Considers Life Beyond High School

1. Using myBlueprint, find the median pay for the job that you chose.
 - a. You can find jobs by going to Work -> Occupations. Once you select an occupation, you will find the median pay in the "Estimated Salary" section.
2. Median annual pay for your job:
3. Using this link, please input the median pay (gross income) in the box provided and click "Calculate". Scroll down and select "Month" under the "Salary Rate" section. This will give you an idea of what your monthly pay would be. <https://ca.talent.com/tax-calculator/New+Brunswick>
4. Monthly pay for your job:
5. Consider some of your basic monthly expenses. This would include rent, tenant insurance, utilities, internet, groceries, car payment, gas, car insurance, cell phone bill, miscellaneous expenses like shopping, eating out, etc. Use your device to google some of these estimated costs.
